

# Joshua Usselman

## Front End Web Developer

San Francisco, California

usselmanjosh@gmail.com [www.linkedin.com/in/joshuausselman](http://www.linkedin.com/in/joshuausselman) [github.com/jusselman](https://github.com/jusselman) [joshusselman.com](http://joshusselman.com)

- Front End Web Developer with background in technology and education from U.S., Europe and Latin America
- Technologies: React, MongoDB, ExpressJS, Node, Javascript, Django, Postgres, Python, HTML5, CSS
- Strong teamwork and collaboration skills from serving as event director
- Ability to learn quickly and stay adaptable from completing five web development projects in 12 weeks
- Excellent communication skills from working abroad as an educator and interpreter

### PROJECTS:

#### **RTHH**, *August, 2019 - September, 2019*

- Short for 'rhythm', the objective of RTHH is to provide users with a free means of producing music anywhere
- Constructed with the MERN stack <http://rthh.herokuapp.com/>

#### **Bandtogether**, *July, 2019 - August, 2019*

- Bandtogether strives to provide an open source means of booking concerts, thus eliminating service fees
- Constructed with Django, Python and Postgres <http://bandtogether-lmj.herokuapp.com/>

### PROFESSIONAL BACKGROUND:

#### **Freelance Web Developer**, *Self-Employed April, 2018 - July, 2019*

- Consulted with clients to outline website goals, illustrate wire frame and site functionality
- Maintained websites by updating content, implementing new technology and monitoring performance

#### **Event Director**, *Driscoll's Valencia St Mortuary – San Francisco, California December, 2014 - April, 2018*

- Collaborated with fellow directors to carry out funeral arrangements
- Maintained correspondence with county clerks, health departments, consulates, the California Secretary of State and receiving funeral homes in foreign countries

#### **English Second Language Teacher**, *Intel Corporation – Guadalajara, Mexico, October 2011 - September 2013*

- Designed and taught curriculum for Intel Corporation pertinent to English grammar and syntax, business dealings, and cultural nuance
- Provided tutoring in order to guide students in preparation of presentations, correspondence and interviews

### EDUCATIONAL BACKGROUND:

#### **Software Engineering Certificate**, *General Assembly July, 2019 - October, 2019*

- Immersive software engineering program focused on full stack web development
- Designed applications cross-functionally between front-end design and back-end models
- Collaborated with numerous teams to produce professional quality software

#### **Web Development Certificate**, *Codify Academy September, 2017 - December, 2017*

#### **Bachelors of Arts: Spanish**, *University of Oregon*
